- Nodejs(ExpressJs, NestJs)

DATABASE

- MySql
- MongoDB

Honors & Awards

August 2024

Won the first prize in Devkathon 2024

Interests

Learning English, Reading Book, Playing Basketball

Objective

I am actively seeking an internship opportunity as a developer to enhance my skills and gain practical experience in a professional setting. My aim is to leverage my foundational knowledge in programming and software development to contribute to meaningful projects while expanding my skill set. I am particularly interested in opportunities that allow me to collaborate with experienced developers, engage in problem-solving, and participate in the full software development lifecycle. I am excited to collaborate, learn, and grow as a developer during this internship, while making a positive impact on the company's goals and objectives

Education

DUY TAN UNIVERSITY

2021 - 2025

Software Engineering Program in Collaboration with Carnegie Mellon, United States

GPA: 3.75/4.00

Activities

Member

2023 - Now
